

Spring

in my

neighbourhood.

**Marcin

1tie**

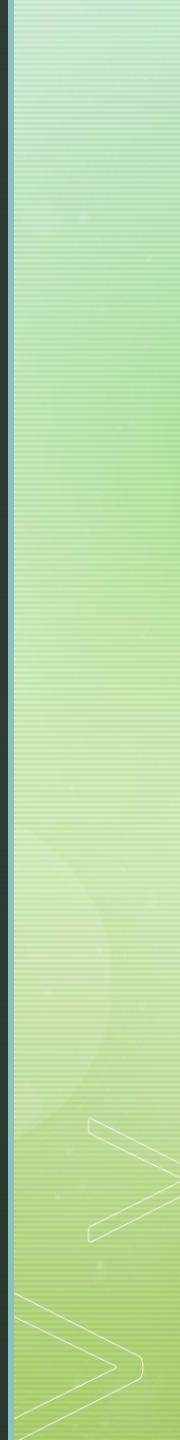

There are many signs of spring around me.

Trees go green.

Buds turn  
into leaves.

There are bees  
in many places.

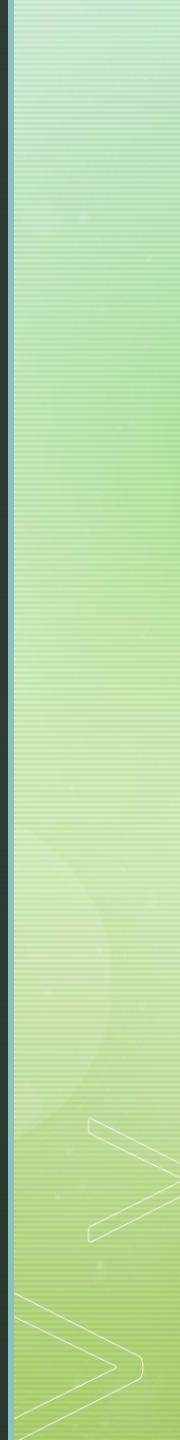

A pretty  
ladybird  
is here.

I see a little  
snail as well.

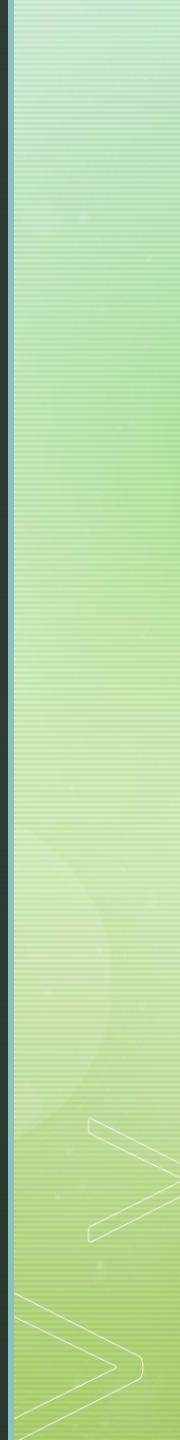

White flowers  
are also present.

I can see yellow  
flowers as well.

A daffodil field of hope is here.

There are  
many lilacs.

Red and green  
go well together.

Yellow  
flowers are  
so beautiful.

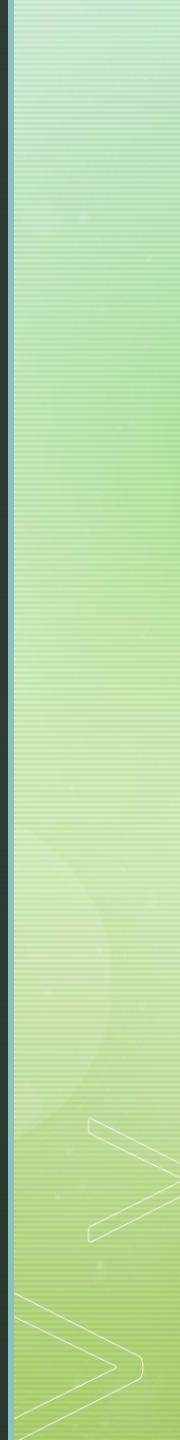

There are red  
leaves and fruit,  
too.

Pansies look so nice.

With pansies and daffodils parks are so colourful.

Thanks  
for  
watching
